• No waiting periods

• No enrollment fees

• Ameritas dental network savings

## Plan information

The Ameritas Dental Network is one of the largest in the nation, making it easier for policyholders across the country to see the dentist of their choice.

- 98% of providers stay with Ameritas year after year
- Network dentists charge 25-50% less than their regular rates, providing out-of-pocket savings to policyholders
- The Ameritas Dental Network offers access to providers in the U.S. and Mexico

Policyholders can visit any dentist and family members do not need to visit the same provider. Find a [Classic \(PPO\) network provider](#) at ameritas.com — Find a Health Provider.

*Network not available in MT, RI and PA counties of Forest and Potter.*

## MAC/MAB claim allowance

The Maximum Allowable Charge (MAC) claim allowance is the maximum amount a network provider may charge. If a policyholder selects a network provider, they may have lower out-of-pocket costs. If they visit an out-of-network dentist, the claim allowance is considered at the Maximum Allowable Benefit (MAB), which is equal to the lowest contracted fee in the ZIP Code area. Policyholders pay the difference between what the plan pays and the dentist's actual charge.

## Increasing maximum

Insurance covers a maximum amount per person per benefit period for Basic and Major services combined. The annual maximum benefit increases after year one.

## Preventive Plus

Type 1 Preventive procedures are not deducted from the plan's annual maximum benefit. This saves all of the annual benefit to help pay for more expensive Basic and Major procedures.
